

UNITED SGD FUND

A SUB-FUND OF UNITED CHOICE PORTFOLIOS II

(constituted in Singapore pursuant to Trust Deed dated 18 May 1998)

FIRST SUPPLEMENTARY PROSPECTUS DATED 30 APRIL 2021

A copy of this First Supplementary Prospectus has been lodged with the Monetary Authority of Singapore, which assumes no responsibility for its contents.

This First Supplementary Prospectus is lodged pursuant to Section 298 of the Securities and Futures Act (Chapter 289 of Singapore) and is supplemental to the prospectus registered on 18 February 2021 (the “**Prospectus**”) relating to the United Choice Portfolios II (the “**Fund**”).

Terms used in this First Supplementary Prospectus will have the meaning and construction ascribed to them in the Prospectus and unless otherwise specified references to “**paragraph**” are to the paragraphs of the Prospectus. This First Supplementary Prospectus is to be read and construed in conjunction and as one document with the Prospectus.

This First Supplementary Prospectus sets out the amendments made to the Prospectus in relation to the implementation of ESG (environmental, social and governance) considerations in the management of the Sub-Fund.

The following amendments will take effect from 31 May 2021:

1. The following new section is inserted immediately before the last sub-paragraph of paragraph 2.1:

“UOBAM became a signatory to the United Nations-supported Principles for Responsible Investment (“**PRI**”) on 2 January 2020. As part of UOBAM’s firm-wide commitment to responsible investment, the Sub-Fund will incorporate environmental, social and governance (“**ESG**”) evaluation which serves to complement its existing fundamental analysis and investment approach. Through such ESG evaluation, inclusion of better and higher quality securities is achieved and this supports the investment objective of the Sub-Fund.

UOBAM will use data or other forms of ESG metrics including ratings provided by independent research vendors as well as any information obtained by UOBAM to assess whether any particular ESG factors may be material to a company and capture any positive or negative momentum around these factors.

With these inputs on the efficacy of a company’s ESG performance, UOBAM will employ its proprietary ESG evaluation model it has developed to consider the ESG impact of various actions of a company. The model also seeks to consider more current headline news to assess real-time ESG performance of the company. The model may also employ different inputs and weigh the significance of those inputs differently than any third party data sources that are used. UOBAM may also conduct adjustments as appropriate to its ESG evaluation of companies relative to a specific sector or across multiple sectors.”

Prohibition against U.S. investors

Units are being offered and sold outside the United States to persons that are not:

- (i) U.S. Persons (as defined in Regulation S promulgated under the Securities Act of 1933 of the U.S., as amended (the “**U.S. Securities Act**”)) in reliance on Regulation S promulgated under the U.S. Securities Act; or
- (ii) “United States persons” (as defined in Section 7701(a)(30) of the U.S. Internal Revenue Code, as amended, and referred to herein as “**U.S. Taxpayers**”). Currently, the term “**U.S. Taxpayer**” includes: a U.S. citizen or resident alien of the “United States” (as defined for U.S. federal income tax purposes); any entity treated as a partnership or corporation for U.S. tax purposes that is created or organised in, or under the laws of, the United States or any

state thereof (including the District of Columbia); any other partnership that may be treated as a U.S. Taxpayer under future U.S. Treasury Department regulations; any estate, the income of which is subject to U.S. income taxation regardless of source; and any trust over whose administration a court within the United States has primary supervision and all substantial decisions of which are under the control of one or more U.S. fiduciaries. Persons who have lost their U.S. citizenship and who live outside the United States may nonetheless, in some circumstances, be treated as U.S. Taxpayers. Persons who are aliens as to the United States but who have spent 183 days or more in the United States in any of the last two years should check with their tax advisors as to whether they may be considered residents of the United States.

Units are not and may not be offered, made available, sold to or for the account of any U.S. Persons or U.S. Taxpayers. You may be required to declare that you are not a U.S. Taxpayer and that you are neither acquiring Units on behalf of U.S. Taxpayers nor acquiring Units with the intent to sell or transfer them to U.S. Taxpayers.

Foreign Account Tax Compliance Act and Common Reporting Standard (“CRS”)

FATCA

FATCA was enacted in 2010 by the U.S. Congress as part of the U.S. Hiring Incentives to Restore Employment (HIRE) Act to target non-compliance with tax laws by U.S. Taxpayers using overseas accounts. Under FATCA, financial institutions outside of the U.S. are required to regularly submit information on financial accounts held by U.S. Taxpayers to the U.S. tax authorities. Failure to comply with FATCA may, amongst other things, subject the Sub-Fund to U.S. withholding tax on certain types of payments made to the Sub-Fund. Accordingly, it is intended that the Sub-Fund complies with FATCA.

For the purpose of complying with FATCA, we, the Trustee, and/or other service providers of the Sub-Fund may be required to report and disclose information on certain investors in the Sub-Fund to the U.S. tax authorities and/or such Singapore authority as may be required under Singapore laws and regulations to be implemented as part of any IGA entered into between the U.S. and Singapore¹ in connection with FATCA and/or withhold certain payments to such investors.

CRS

CRS, endorsed by the Organisation for Economic Co-operation and Development (OECD) and the Global Forum for Transparency and Exchange of Information for Tax Purposes, is an internationally agreed standard for the automatic exchange of information on financial accounts between jurisdictions with the objective of detecting and deterring tax evasion through the use of offshore bank accounts.

In Singapore, the Income Tax (International Tax Compliance Agreements) (Common Reporting Standard) Regulations 2016 require financial institutions such as us to conduct due diligence (including the collection, review and retention of financial account information) and report financial account information relating to specified persons from jurisdictions with which Singapore has a “competent authority agreement” (“CAA”) to the Inland Revenue Authority of Singapore (IRAS). Such information may subsequently be exchanged with Singapore’s CAA partners. Singapore may enter into further IGAs, or the relevant authorities may enact further legislation or impose further requirements, which will form part of the CRS.

* * *

You are required to:

- (a) provide such information, documents and assistance in connection with the above or any other tax or other information reporting regime as we and/or the Trustee may require from time to time; and
- (b) notify us or any of our authorised agents or distributors in writing immediately if you are or become a U.S. Taxpayer, or are holding Units for the account of or benefit of a U.S. Taxpayer.

You are also deemed to have consented to us, the Trustee and/or other service providers to the Sub-Fund carrying out our/their obligations in reporting and disclosing information on you and your investments to the relevant authorities as described above or pursuant to any other tax or other information reporting regime.

¹ Pursuant to the IGA entered into between Singapore and the U.S. on 9 December 2014, Singapore-based financial institutions (such as us) will report information on financial accounts held by U.S. Taxpayers to the Inland Revenue Authority of Singapore (IRAS), which will in turn provide the information to the U.S. tax authorities.

* * *

We may compulsorily realise all or any of your Units in any of the circumstances set out under paragraph 21.2 of this Prospectus.

You may direct your enquiries in relation to the Fund or the Sub-Fund to us or our authorised agents or distributors.

UNITED CHOICE PORTFOLIOS II

PROSPECTUS

1. BASIC INFORMATION

1.1 Fund details

United Choice Portfolios II is an umbrella unit trust under which we may establish sub-funds to be managed as separate and distinct trusts. This is a Prospectus for the following Sub-Fund:

- United SGD Fund

The Sub-Fund is an open-ended unit trust constituted in Singapore with no fixed maturity.

The Sub-Fund is denominated in SGD.

1.2 Date of registration and expiry date of Prospectus

The Authority registered this Prospectus on 18 February 2021. It is valid up to 17 February 2022 and will expire on 18 February 2022.

1.3 Classes of Units

The following Classes of Units have been established within the Sub-Fund:

- Class A (Acc) SGD
- Class A (Dist) SGD
- Class A (Acc) USD (Hedged)
- Class A (Dist) USD (Hedged)
- Class B (Acc) SGD
- Class S SGD Dist
- Class S USD Dist (Hedged)

Important note: we intend to standardise the naming convention of the classes of units of our collective investment schemes and accordingly, the above Classes will respectively be renamed as follows with effect from such date as we and the Trustee may agree²:

- Class A SGD Acc
- Class A SGD Dist
- Class A USD Acc (Hedged)
- Class A USD Dist (Hedged)
- Class B SGD Acc
- Class S SGD Dist
- Class S USD Dist (Hedged)

The Sub-Fund may consist of one or more Classes of Units. Different Classes may have different characteristics such as the Class currency, fee structure, minimum threshold amounts for subscription, holding and realisation, distribution policy, eligibility requirements, mode of investment, the availability of a RSP and whether the relevant Class is a Hedged Class. A separate NAV per Unit (in the relevant Class currency), which may differ as a consequence of such variable factors, will be calculated for each Class. Save for such differences, Holders of each Class of a Sub-Fund have materially the same rights and obligations under the Deed. You should note that the assets of a Sub-Fund are pooled and invested as a single fund and are not segregated in respect of each Class.

² The new Class names will be reflected in the monthly statement sent to you at the relevant time.

Note on naming convention:

- *Classes designated “A” are available for subscription by all investors.*
- *Classes designated “B” are available for subscription by institutional clients and such other persons as we may from time to time determine in our sole discretion.*
- *Classes designated “S” are available for subscription by such persons as we may from time to time determine in our sole discretion.*
- *The currency stated in the name of a Class is its Class currency: e.g. the Class currency of Class S USD Dist (Hedged) is USD.*
- *“Dist” or “Acc” refers to whether the Class is a Distribution Class (which may make distributions) or Accumulation Class respectively.*
- *If the Class name contains “(Hedged)” then it is a Hedged Class.*

We may at any time establish new Classes within the Sub-Fund. We may re-designate the Units in any existing Class so long as there is no prejudice to the existing Holders of such Class as a whole. Subject to the foregoing, we may, with written notice to the Trustee, launch or delay the launch of any Class at any time.

State Street Bank and Trust Company, Singapore Branch, holds a wholesale bank licence issued by the Authority and is regulated by the Authority.

SSBT provides custodian services in over 100 markets by utilising its local market custody operations and through its network of sub-custodian banks. SSBT will appoint sub-custodians in those markets where the Sub-Fund invests where SSBT does not itself act as the local custodian. SSBT has processes for the initial selection, and ongoing monitoring of its sub-custodians, each of which is chosen based upon a range of factors including securities processing and local market expertise, and must satisfy specific operating requirements in terms of structure, communications, asset servicing and reporting capabilities. All sub-custodians appointed by SSBT must be licensed and regulated under applicable law to provide custodian and related asset administration services, and carry out relevant related or ancillary financial activities, in the relevant market jurisdiction. SSBT will typically seek to select local branches or affiliates of major global financial institutions that provide sub-custodian services in multiple markets, although unique market service requirements may result in the selection of an entity as sub-custodian that is more local in scope.

Other custodians may be appointed from time to time in respect of the Sub-Fund or any of its assets.

See paragraph 21.3 below for further details of the custodial arrangement in respect of the Deposited Property.

3.3 The administrator

The administrator of the Sub-Fund is State Street Bank and Trust Company, acting through its Singapore Branch, which has been appointed by the Managers to provide (i) certain administration and valuation services including accounting and net asset value calculation pursuant to an Administrative Services Agreement, and (ii) certain transfer agency services pursuant to a Transfer Agency and Services Agreement, to the Sub-Fund.

4. OTHER PARTIES

4.1 The registrar

State Street Bank and Trust Company, acting through its Singapore Branch, has been appointed by the Trustee as the registrar of the Fund and will be responsible for keeping the Register. Any Holder may inspect the Register at 168 Robinson Road, #33-01, Capital Tower, Singapore 068912 during normal business hours (subject to such reasonable restrictions as the registrar may impose).

The Register is conclusive evidence of the number of Units held by each Holder. The entries in the Register shall prevail over the details appearing on any statement of holding, unless the Holder proves to the Trustee's and our satisfaction that the Register is incorrect.

4.2 The auditors

The auditors of accounts of the Fund are PricewaterhouseCoopers LLP.

5. INVESTMENT CONSIDERATIONS

5.1 Investment Objective and Focus

The investment focus of the Sub-Fund is to invest substantially all its assets in money market and short term interest bearing debt instruments and bank deposits with the objective of achieving a yield enhancement over Singapore dollar deposits.

5.2 Investment Approach

Our research process is fundamental and valuation driven, and bottom-up in approach. We have a team of credit analysts for both Singapore fixed income issuers and high grade corporate issuers in the developed markets. This benefits our Singapore credit research efforts as many high grade foreign issuers have issued Singapore-dollar denominated securities.

For Singapore, Asia and emerging markets, our team of credit analysts conducts a detailed credit analysis that evaluates industry outlook, business review, financial review, management expertise, strength of ownership and specific debt structure. This results in an implied rating score. Relative valuation will determine corporate credit selection.

For rated issuers, mainly US/Europe high grade issuers, to supplement the fundamental analysis by their G10 credit team, we have implemented a quantitative credit risk approach based from the KMV model. This model uses the Merton option framework to calculate the implied asset volatility or the Expected Default Frequency (EDF) of any corporate bond issue. Other inputs include an asset correlation database, which is generated from a proprietary risk management system. Together, the model will calculate the return-expected loss trade off for any corporate bond issue.

5.3 Investment style and benchmark usage

The Sub-Fund is actively managed without reference to its benchmark (as set out in paragraph 15.1), which is used as a target for the Sub-Fund to beat.

5.4 Distribution policy

Distributions (if any) will only be made in respect of the Distribution Classes of the Sub-Fund.

Class A (Dist) SGD and Class A (Dist) USD (Hedged): We currently intend to make regular quarterly distributions of 2.5% p.a. (or such other percentage or frequency as we may from time to time determine) of the NAV per Unit as at the last Business Day of every calendar quarter (or such other date as we may from time to time determine).

Class S SGD Dist and Class S USD Dist (Hedged): We currently intend to make monthly distributions of at least 3% p.a. (or such other percentage or frequency as we may from time to time determine) of the NAV per Unit as at the last Business Day of every calendar month (or such other date as we may from time to time determine).

Distributions will commence only after a period of at least 6 months following the inception of the relevant Distribution Class (or after such other period as we may determine at our sole discretion).

Distributions shall be based on the number of Units held by each Holder as at the relevant Distribution Date as evidenced by the Register. Distributions will be made to Holders within 30 Business Days from the relevant Distribution Date.

The making of distributions is at our absolute discretion and distributions are not guaranteed. The making of any distribution does not mean that further distributions will be made. We reserve the right to vary the frequency and/or amount of distributions. Distributions may be made out of the income, capital gains or capital. The declaration or payment of distributions (whether out of income, capital gains, capital or otherwise) may have the effect of lowering the NAV of the Sub-Fund or the relevant Class. Moreover, distributions out of capital may amount to a reduction of part of your original investment and may result in reduced future returns.

5.5 Product suitability

The Sub-Fund is suitable for investors who:

- seek to achieve a yield enhancement over Singapore dollar deposits; and
- are comfortable with the volatility and risks of a bond fund which invests in money market and short term interest bearing debt instruments and bank deposits.

5.6 Authorised Investments

The authorised investments of the Sub-Fund (“**Authorised Investments**”), which Units are Excluded Investment Products, are any Investment or other property, assets or rights for the time being approved by the relevant authorities in Singapore for investment by the Sub-Fund, only to the extent allowed under the CMP Regulations for the purposes of classifying Units of the Sub-Fund as Excluded Investment Products.

See the Deed for the full meaning of the term Investment.

The Sub-Fund intends to use or invest in FDIs. Further information is set out in paragraph 5.8 of this Prospectus.

5.7 Investment Restrictions

- (a) The investment guidelines and borrowing limits as set out under Appendix 1 of the Code apply to the Sub-Fund.
- (b) The CPF Investment Guidelines apply to the Sub-Fund.
- (c) Units of the Sub-Fund are Excluded Investment Products. Accordingly, the Sub-Fund will not invest in any product or engage in any transaction which may cause the Units of the Sub-Fund not to be regarded as Excluded Investment Products.
- (d) Currently, the Sub-Fund does not intend to carry out securities lending or repurchase transactions but may do so in the future, in accordance with the applicable provisions of the Code and the CPF Investment Guidelines. Accordingly, the Sub-Fund may at such time in the future become subject to the provisions on securities lending and repurchase transactions as set out in the Code and the CPF Investment Guidelines. The Managers shall not engage in securities lending or repurchase transactions for the Sub-Fund (which Units are Excluded Investment Products), except where such securities lending or repurchase transaction are carried out solely for the purpose of efficient portfolio management and do not amount to more than 50% of the NAV of the Sub-Fund.

5.8 Risk management procedures of the Managers on certain investments

- (a) Subject to the provisions on FDIs set out in the CMP Regulations for the purpose of classifying Units of the Sub-Fund as Excluded Investment Products, the Sub-Fund may use or invest in FDIs for the purposes of hedging existing positions in a portfolio, for efficient portfolio management or a combination of both purposes.
- (b) We will use the commitment approach to determine the Sub-Fund's global exposure to FDIs by converting its positions in the FDIs into equivalent positions in the FDIs' underlying assets. Such exposure will be calculated in accordance with the provisions of the Code. We will ensure that the global exposure of the Sub-Fund to FDIs or embedded FDIs will not exceed 100% of the Sub-Fund's NAV.
- (c) Below is a description of risk management and compliance procedures and controls adopted by us:
 - (i) We will implement various procedures and controls to manage the risk of the Sub-Fund's assets. Our decision to invest in any particular security or instrument on behalf of the Sub-Fund will be based on our judgment of the benefit of such transactions to the Sub-Fund and will be consistent with the Sub-Fund's investment objective in terms of risk and return.
 - (ii) *Execution of trades.* Prior to each trade, we will ensure that the intended trade will comply with the stated investment objective, focus, approach and restrictions (if any) of the Sub-Fund, and that best execution and fair allocation of trades are done. Our Governance department will conduct periodic checks to ensure compliance with the investment objective, focus, approach and restrictions (if any) of the Sub-Fund. If there is any non-compliance, our Governance department is empowered to instruct the relevant officers to rectify the same. Any non-compliance will be reported to higher management and monitored for rectification.
 - (iii) *Liquidity.* If there are any unexpectedly large realisations of Units, it is possible that the assets of the Sub-Fund may be forced to be liquidated at below their fair and expected value, especially in illiquid public exchanges or over-the-counter markets. Also, under certain market conditions such as during volatile markets, crisis situations or trading disruptions, it may be difficult or impossible to liquidate or rebalance positions. While we will ensure that a sufficient portion of the Sub-Fund will be in liquid assets such as cash and cash-equivalents to meet expected realisations (net of new subscriptions), we may in certain situations employ liquidity management tools such as limiting or suspending realisations in accordance with paragraphs 11.3 or 14. If such tools are employed, you may not be able to realise your Units during any suspension period or the realisation of your Units may be delayed.
 - (iv) *Counterparty exposure.* The Sub-Fund may have credit exposure to counterparties by virtue of positions in FDIs and other financial instruments held by the Sub-Fund. To the extent that a counterparty defaults on its obligations and the Sub-Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its assets and in its income stream and incur extra costs associated with the exercise of its financial rights. Subject to the provisions of the Code, we will restrict our dealings with counterparties to entities that have a minimum long-term issuer credit rating of above BB+ by Standard and Poor's, an individual rating of above C or viability ratings of above bbb by Fitch Inc., a baseline credit assessment of above a3 by Moody's Investors Service, or an equivalent rating from any other reputable rating agency. If any approved counterparty fails this criterion subsequently, we will take steps to unwind the Sub-Fund's position with that counterparty as soon as practicable.
 - (v) *Volatility.* To the extent that the Sub-Fund has exposure to FDIs that allow a larger amount of exposure to a security for no or a smaller initial payment than the case where the investment is made directly into the underlying security, the value of the Sub-Fund's assets will have a higher degree of volatility. The Sub-Fund may use FDIs for hedging purposes to reduce the overall volatility of the value of its assets. At the same time, we will ensure that the global exposure of the Sub-Fund to FDIs and embedded FDIs will not exceed the NAV of the Sub-Fund, as stated in sub-paragraph (b) above.

- (vi) *Valuation.* The Sub-Fund may have exposure to over-the-counter FDIs that are difficult to value accurately, particularly if there are complex positions involved. We will ensure that independent means of verifying the fair value of such instruments are available, and will conduct such verification at an appropriate frequency.
- (d) We will ensure that the risk management and compliance procedures and controls adopted by us are adequate and have been or will be implemented, and that we have the necessary expertise to control and manage the risks relating to the use of FDIs. We may modify the risk management and compliance procedures and controls as we deem fit and in the interests of the Sub-Fund, but subject always to the requirements under the Code.
- (e) The Sub-Fund may net its over-the-counter derivative positions with a counterparty through bilateral contracts for novation or other bilateral agreements with the counterparty, provided that such netting arrangements satisfy the relevant conditions described in the Code.
- (f) Where the Sub-Fund uses or invests in FDIs on commodities, all such transactions shall be settled in cash at all times.

6. SUB-FUND INCLUDED UNDER THE CPFIS

- 6.1 The Sub-Fund is included under the CPFIS – Ordinary Account and CPFIS – Special Account for subscription by members of the public using their CPF monies. You should note that only Class A (Acc) SGD Units are currently available for subscription using CPF monies.
- 6.2 The Sub-Fund is classified by the CPF Board under the risk classification of “Low to Medium Risk – Broadly Diversified”.
- 6.3 The CPF interest rate for the CPF Ordinary Account is based on the 12-month fixed deposit and month-end savings rates of the major local banks. Under the Central Provident Fund Act, Chapter 36 of Singapore, the CPF Board pays a minimum interest of 2.5% per annum when this interest formula yields a lower rate.

From 1 January 2008, the new interest rate for the Special, Medisave and Retirement Accounts (“SMRA”) will be pegged to the yield of 10-year Singapore government bond plus 1%. The minimum interest rate for the SMRA is 4.0% per annum and is reviewed annually.

In addition, from 1 January 2008, the CPF Board will pay an extra interest rate of 1% per annum on the first S\$60,000 of a CPF member’s combined balances, including up to S\$20,000 in the CPF Ordinary Account. From 1 April 2008, the first S\$20,000 in both the CPF Ordinary and Special Accounts will not be allowed to be invested under the CPFIS. The S\$20,000 investment threshold under the CPF Special Account has been raised to S\$30,000 from 1 May 2009 and further raised to S\$40,000 from 1 July 2010. There is no change to the requirement for members to set aside S\$20,000 in the CPF Ordinary Account before they can invest their CPF Ordinary Account monies.

The applicable interest rates for each of the CPF accounts may be varied by the CPF Board from time to time.

Subscriptions using CPF monies are subject to the CPFIS regulations and conditions imposed by the CPF Board from time to time.

8. RISKS

8.1 General risks

You should consider and satisfy yourself as to the risks of investing in the Sub-Fund.

Generally, some of the risk factors that you should consider are market risks, interest rate risks, foreign exchange risks, political risks, repatriation risks, liquidity risks and derivatives risks. The degree to which these risks affect investments in the Sub-Fund varies depending on the Sub-Fund's investment objective, approach and focus, and you should also consider the risks specific to the Sub-Fund.

You should be aware that the price of Units and the income accruing from them may fall or rise and you may not get back your original investment. There is no guarantee that the investment objective of the Sub-Fund will be achieved.

Investment in the Sub-Fund is not meant to produce returns over the short term and you should not expect to obtain short-term gains from such investment.

The general and specific risks described in this paragraph 8 are not exhaustive and you should be aware that the Sub-Fund may be exposed to other risks of an exceptional nature from time to time.

8.2 Specific risks

(a) Market risk in the global markets

You should consider and satisfy yourself as to the usual risks of investing and participating in publicly traded securities. Prices of securities that the Sub-Fund invests in may be affected by changes in economic conditions, interest rates and the market's perception of securities which in turn may cause the price of Units to rise or fall.

(b) Foreign exchange and currency risk

The Sub-Fund is denominated in SGD while each Class is denominated in the relevant currency.

Where the Sub-Fund makes investments which are denominated in a currency (the “**Portfolio Currency**”) that is different from the Sub-Fund currency or the relevant Class currency, fluctuations of the exchange rates between the Sub-Fund currency or Class currency and the Portfolio Currency may affect the value of the relevant Units.

In our management of the Sub-Fund, we may hedge the foreign currency exposure of the Sub-Fund or any Class, and may adopt an active or passive currency management approach. However, the foreign currency exposure of the Sub-Fund or Class may not be fully hedged depending on the circumstances of each case. Such circumstances include but are not limited to the outlook, hedging costs and market liquidity of the relevant currency.

Subject to the provisions of the Code, in the hedging of any such foreign currency exposure of the relevant Class, we may hedge up to 100% of the proportion of the NAV attributed to such Class.

Additionally, where a Class is denominated in a different currency from the Sub-Fund currency, changes in the exchange rate between the Class currency and the relevant Sub-Fund currency may adversely affect the value of the Units of such Class, as expressed in the Class currency. Subject to the same considerations in the sub-paragraph above, we may or may not mitigate the exchange rate risks to the extent of the value of the assets of the Sub-Fund attributed to such Class by hedging such exchange rate risks, and to the extent that we do not do so, investors will be exposed to exchange rate risks.

Although a financial instrument used to mitigate the exchange rate risks of a Class may not be used in relation to the other Classes of Units within the Sub-Fund, the financial instrument will comprise the assets (or liabilities) of the Sub-Fund as a whole. The gains (or losses) on and the costs of the relevant financial instrument will, however, accrue solely to the relevant Class of Units of the Sub-Fund.

Hedged Classes

A Sub-Fund may offer Units in Hedged Classes. For Hedged Classes, we currently adopt a passive hedging policy to hedge the currency in which the relevant Hedged Class is denominated (the “**Hedged Currency**”) against the Portfolio Currency. Notwithstanding the above, we retain the discretion to adopt any other hedging policy as we may determine from time to time.

A Hedged Class allows us to use currency hedging transactions to reduce the effect of exchange rate fluctuations between the Portfolio Currency and the Hedged Currency. The effects of hedging will be reflected in the value of the Hedged Class.

The aim is that the Hedged Class should reflect the actual return of the Portfolio Currency within the Sub-Fund, as applicable, plus or minus the interest rate differential between the Hedged Currency and the Portfolio Currency. However, other factors may impact the return of the Hedged Class which means that the Hedged Class may not perfectly achieve this aim. These factors include, but are not limited to: (i) any unrealised profit/loss on the currency forward remaining un-invested until the hedge is rolled over and any profit or loss is crystallised; (ii) transaction costs; (iii) short-term interest rate changes; (iv) the timing of the market value hedge adjustments relative to the Sub-Fund’s or Hedged Class’ Valuation Point; and (v) intra-day volatility of the value of the Portfolio Currency in relation to the existing hedge.

The costs and expenses associated with the hedging transactions in respect of a Hedged Class and any benefits of the hedging transactions will accrue to Holders in that Hedged Class only.

Subject to the provisions of the Code, we will aim to hedge not more than 100% of the proportion of the NAV attributable to the relevant Hedged Class. When assessing the hedging transactions in respect of a Hedged Class, we will take both the capital and income values of the Hedged Class into account.

We will review the relevant hedging positions daily and, if appropriate, adjust the hedge to reflect investor inflows and outflows.

Please note that hedging transactions may be entered into whether the Hedged Currency is declining or increasing in value relative to the Portfolio Currency; consequently, where such hedging is undertaken, it may protect investors in the relevant Hedged Class against a decrease in the value of the currency being

hedged but it may also preclude investors from benefiting from an increase in the value of such currency. Investors in a Hedged Class will still be exposed to the market risks that relate to the underlying investments in the Sub-Fund and any exchange rate risks that arise from the policy of the Sub-Fund that is not fully hedged. There is no guarantee that the hedging strategy applied in a Hedged Class will entirely eliminate the adverse effects of changes in exchange rates between the Portfolio Currency and the Hedged Currency.

(c) Political risk

The Sub-Fund's investments may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by the relevant authorities in the relevant countries.

(d) Derivatives risk

As the Sub-Fund may use or invest in FDIs, it will be subject to risks associated with such FDIs. FDIs include foreign exchange forward contracts. An investment in a FDI may require the deposit of an initial margin and additional deposit of margin on short notice if the market moves against the investment position. If the required margin is not provided in time, the investment may be liquidated at a loss. Therefore, it is essential that investments in FDIs are monitored closely. We have controls for investments in FDIs and have in place systems to monitor the FDI positions of the Sub-Fund. See paragraph 5.8 for more information on our risk management procedures on certain investments.

(e) Liquidity risk of investments

Investments by the Sub-Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services often taken for granted in more developed markets. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and lack of liquidity which are inherent characteristics of these markets.

(f) Small capitalisation companies risk

Investments in companies with small capitalisation generally carry greater risk than is customarily associated with larger capitalisation companies, which may include, for example, less public information, more limited financial resources and product lines, greater volatility, higher risk of failure than larger companies and less liquidity. The result may be greater volatility in the share prices of such companies.

(g) Single country, sector or regional risk

You should be aware that investments in a single country, sector or region which may present greater opportunities and potential for capital appreciation may be subject to higher risks as they may be less diversified than a global portfolio.

(h) Interest rate risks

The Sub-Fund's investments in debt securities are subject to the risk of interest rate fluctuations, and the prices of debt securities may go up or down in response to such fluctuations in interest rates.

(i) Credit and default risks

Adverse changes in the financial condition of the issuer of the debt securities which the Sub-Fund is invested in, or in general economic conditions, or both, or an unanticipated rise in interest rates, may increase the potential for default.

(j) Broker Risk

We may engage the services of third party securities brokers and dealers to acquire or dispose the investments of the Sub-Fund and to clear and settle its exchange traded securities trades. In selecting brokers and dealers and in negotiating any commission involved in our transactions with them, we consider, amongst other

things, the range and quality of the professional services provided by such brokers and dealers and their credit standing and licensing or regulated status.

It is possible that the brokers or dealers engaged for the Sub-Fund may encounter financial difficulties that may impair the Sub-Fund's operational capabilities. If a broker or dealer fails or becomes insolvent, there is a risk that the Sub-Fund's orders may not be transmitted or executed, and its outstanding trades made through the broker or dealer may not settle.

(k) Counterparty risk

The Sub-Fund is exposed to the risk that a counterparty may default on its obligations to perform under a particular contract. If a counterparty becomes bankrupt or insolvent, the Sub-Fund could experience delays in liquidating an investment and may therefore incur significant losses, including losses resulting from a decline in the value of the investment during the period in which the Sub-Fund seeks to enforce its rights. The Sub-Fund may also be unable to realise any gains on the investment during such period and may incur fees and expenses to enforce its rights. There is also a risk that counterparty contracts may be terminated earlier due to, for instance, bankruptcy, supervening illegality or change in the tax or accounting laws relative to those laws existing at the time the contracts were entered into.

(l) Risks relating to distributions

Distributions from the Sub-Fund or a Class are at our absolute discretion and are not guaranteed. Distributions may be made from dividend/interest income and capital gains derived from the investments of the Sub-Fund. Dividend/interest income may be adversely affected by events such as (but not limited to) investee entities suffering unexpected losses and/or paying lower than expected dividends, and adverse currency exchange rate fluctuations. Subject to the distribution policy of the relevant Class, distributions may also be made out of capital. The declaration and/or payment of distributions (whether out of income, capital gains, capital or otherwise) may have the effect of lowering the NAV of the Sub-Fund or the relevant Class. Moreover, distributions out of capital may amount to a reduction of your original investment and may also result in reduced future returns to you.

(m) Investment management risk

Investment performance depends on the portfolio management team and the team's investment strategies. If the investment strategies do not perform as expected, if opportunities to implement those strategies do not arise, or if the team does not implement its investment strategies successfully, an investment portfolio may underperform or suffer significant losses.

(n) Risk of using rating agencies and other third parties

Credit ratings of instruments invested into by the Sub-Fund represent our and/or rating agencies' opinion regarding the credit quality of the instrument or the institution and are not a guarantee of quality. Rating methodologies generally rely on historical data, which may not be predictive of future trends and adjustments to credit ratings in response to subsequent changes in circumstances may take time. When a debt security is rated, the downgrading of such debt security could decrease the value and liquidity of the security.

Where we rely on ratings issued by credit rating agencies, we have established a set of internal credit assessment standards and have put in place a credit assessment process to ensure that the Sub-Fund's investments are in line with these standards. Information on our credit assessment process will be made available to investors upon request.

We may rely, without independent investigation, upon pricing information and valuations furnished to the Sub-Fund by third parties, including pricing services and independent brokers/dealers. Their accuracy depends on these parties' methodology, due diligence and timely response to changing conditions. We will not be responsible for any failures by such parties in their valuations.

Pricing basis:	Units are issued on a forward pricing basis.

Deduction of Subscription Fee:	A Subscription Fee may be deducted from the Gross Investment Amount, and the Net Investment Amount will be applied towards your subscription of Units.

Other salient terms:	<ul style="list-style-type: none"> You shall bear any costs incurred (including currency exchange costs) if you pay for your Units in a currency other than the currency of the Sub-Fund or relevant Class.

9.4 Numerical example calculation of Units allotted

The number of Units you will receive with an investment of S\$1,000.00 will be calculated as follows:

S\$1,000.00	-	S\$50.00	=	S\$950.00
Gross Investment Amount		Subscription Fee (5%)*		Net Investment Amount
S\$950.00	÷	S\$1.000*	=	950.00**
Net Investment Amount		Issue price		Number of Units allotted

* Based on an issue price of S\$1.000 and a Subscription Fee of 5%. This example is a hypothetical and is not indicative of any future issue price. The actual issue price will fluctuate according to the NAV of the relevant Class. Units in some Classes may not be denominated in SGD.

** The number of Units to be issued will be rounded down to 2 decimal places.

9.5 Cancellation of subscription

Subject to the provisions of the Deed and the terms and conditions for cancellation of subscription in the cancellation form provided together with the application form for Units, you may cancel your subscription for Units by giving written notice or by submitting the cancellation form (whichever is applicable) to us or our authorised agents or distributors within 7 calendar days⁴ from the date of subscription. However, you will take the risk of any change in the price of your Units since the date of your subscription and pay any bank charges, administrative or other fees imposed by the relevant authorised agent or distributor.

Instead of cancelling your subscription, you may choose to realise your Units in accordance with paragraph 11, but you will not enjoy the benefits of cancellation under this paragraph (i.e. the Subscription Fee will not be refunded and a Realisation Charge (if any) may be imposed). Further, the Net Realisation Proceeds may be lower than the cancellation proceeds if any appreciation in the value of the Units is less than the aggregate of the Subscription Fee and Realisation Charge (if any) imposed.

See the terms and conditions for cancellation of subscriptions in the cancellation form before subscribing for Units.

9.6 Conditions to the launch of any Class

We reserve the right not to proceed with the launch of any Class if we are of the view that it is not in the interest of the investors or it is not commercially viable to proceed with the relevant Class.

In such event, we may at our discretion declare the relevant Class to be deemed not to have commenced, and shall notify the relevant investors of the same and return the subscription monies received (without interest) to the relevant investors no later than 30 Business Days after the close of the relevant initial offer period.

Pricing basis:	<p>Units are realised on a forward pricing basis.</p>
Realisation price:	<p>The realisation price per Unit shall be ascertained by:</p> <ul style="list-style-type: none">(a) calculating the NAV as at the Valuation Point in relation to the Dealing Day on which the realisation request is received of the proportion of the Deposited Property of the Sub-Fund or the relevant Class represented by one Unit; and(b) truncating the resultant amount to 3 decimal places. <p>We may use another method of determination or adjustment or number of decimal places with the approval of the Trustee.</p> <p>Any adjustments shall be retained by the Sub-Fund.</p>
Deduction of Realisation Charge:	<p>A Realisation Charge (if any) may be deducted from the Gross Realisation Proceeds, and the Net Realisation Proceeds will be paid to you.</p>

11.2 Numerical example of calculation of Net Realisation Proceeds

The Net Realisation Proceeds payable to you on the realisation of 1,000 Units will be calculated as follows:

1,000 Units	x	S\$0.900*	=	S\$900.00
Your realisation request		Realisation price		Gross Realisation Proceeds
S\$900.00	-	S\$0.00	=	S\$900.00
Gross Realisation Proceeds		Realisation Fee (0%)*		Net Realisation Proceeds

* Based on a realisation price of S\$0.900. There is currently no Realisation Charge payable for the Sub-Fund. This example is a hypothetical and is not indicative of any future realisation price. The actual realisation price will fluctuate according to the NAV of the relevant Class. Units in some Classes may not be denominated in SGD.

11.3 Limit on realisations

We may, with the approval of the Trustee and subject to the provisions of the Deed, limit the total number of Units to be realised by the Holders or cancelled by us on any Dealing Day up to 10% of the total number of Units of the Sub-Fund or Class then in issue. Such limitation will be applied proportionately to all Holders who have validly requested realisations on such Dealing Day and to us.

Any Units which are not realised or cancelled will be realised or cancelled on the next Dealing Day, provided that if the number of Units to be realised or cancelled still exceeds such limit, we may continue to carry forward the realisation/cancellation requests in the same manner, until such time as the total number of Units to be realised or cancelled on a Dealing Day falls within such limit.

If realisation requests are so carried forward and you are affected, we will notify you within 7 Business Days. Realisation requests which have been carried forward from an earlier Dealing Day shall be dealt with in priority to later requests.

11.4 Compulsory realisations

We may compulsorily realise your holding of Units in certain circumstances. See paragraph 21.2 for further details.

12. SWITCHING OF UNITS

How to switch your Units:	You may request to switch your Units for Units in a different Class, or for units of any other Group Fund (the “new units”) by giving us or our authorised agents or distributors a switching request in the prescribed form.
When switches are made:	<p>Switches will only be made on a day (“Common Dealing Day”) which is both a Dealing Day for your Units and a dealing day for the new units.</p> <p>For requests received and accepted by us or our authorised agents or distributors by the Dealing Deadline of a Common Dealing Day, Units will be switched on that Common Dealing Day.</p> <p>For requests received and accepted after the Dealing Deadline or on a day that is not a Common Dealing Day, Units will be switched on the next Common Dealing Day.</p>
How switches are carried out:	<p>A switch of Units will be effected as follows:</p> <ul style="list-style-type: none"> (a) your Units will be realised at the realisation price calculated under paragraph 11; (b) the net realisation proceeds shall then be used (after deducting any Switching Fee payable) to subscribe for new units at the prevailing issue price of such new units. We will not be liable in respect of any action taken or loss suffered by you arising from any publication by such publishers.

14. SUSPENSION OF DEALINGS

14.1 Subject to the provisions of the Code, we may at any time, with the prior written approval of the Trustee, suspend the issuance and realisation of Units in the Sub-Fund or a Class of the Sub-Fund:

- (a) during any period when any Recognised Stock Exchange for any material proportion of the Investments for the time being constituting the Deposited Property of the Sub-Fund or the relevant Class is closed otherwise than for ordinary holidays; or
- (b) during any period when dealings on any such Recognised Stock Exchange are restricted or suspended; or
- (c) during any period when, in our opinion, there exists any state of affairs as a result of which withdrawal of deposits held for the account of the Sub-Fund or the relevant Class or the realisation of any material proportion of the Investments for the time being constituting the Deposited Property of the Sub-Fund or the relevant Class cannot be effected normally or without seriously prejudicing the interests of Holders as a whole; or

- (d) during any period when in our opinion, there is a breakdown in the means of communication normally employed in determining the value of any of the Investments or the amount of any cash for the time being comprised in the Deposited Property of the Sub-Fund or the relevant Class or the amount of any liability of the Trustee for account of the Sub-Fund or the relevant Class or when for any other reason the value of any such Investments or the amount of any such cash or liability cannot be promptly and accurately ascertained; or
- (e) during any period when, in our opinion, the transfer of funds which will or may be involved in the realisation of any material proportion of the Investments for the time being constituting the Deposited Property of the Sub-Fund or the relevant Class cannot be effected promptly at normal rates of exchange; or
- (f) if during any particular day the requests for realisation of Units exceed 10 per cent of the Units of the Sub-Fund or the relevant Class in issue and deemed to be in issue; or
- (g) during any 48 hour period (or such other longer period as the Trustee and we may agree) prior to the date of any meeting of Holders of Units in the Sub-Fund or the relevant Class (or any adjourned meeting thereof); or
- (h) during any period when the dealing of Units of the Sub-Fund or the relevant Class is suspended pursuant to any order or direction issued by the Authority; or
- (i) during any period when the Trustee's or our business operations in relation to the operations of the Sub-Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riots, strikes or acts of God; or
- (j) such circumstances as may be required under the provisions of the Code.

For the purposes of this paragraph, the “**material proportion**” of the Investments means such proportion of the Investments which when sold would, in our opinion in consultation with the Trustee, cause the value of the Deposited Property of the Sub-Fund or the relevant Class to be significantly reduced.

- 14.2 Subject to the provisions of the Code, we and/or the Trustee may from time to time also suspend the issue and/or realisation of Units in certain situations as set out in the Deed.
- 14.3 Such suspension will take effect upon our written declaration to the Trustee (or vice versa, as the case may be) and subject to the provisions of the Code, shall end on the day following the 1st Business Day on which the condition giving rise to the suspension no longer exists and no other conditions under which suspension is authorised above exist upon our or the Trustee's (as the case may be) written declaration of the same. The period of suspension may be extended in accordance with the Code. Any payment for any Units realised before the commencement of any such suspension which has not been paid before the commencement thereof may, if we and the Trustee agree, be deferred until immediately after the end of such suspension.

- (2) Calculated on a NAV-to-NAV basis as at 30 November 2020, taking into account the Subscription Fee and Realisation Charge (if any), with all dividends and distributions reinvested (net of reinvestment charges). Figures for one year show the percentage change, while figures for more than one year show the average annual compounded return.
- (3) The expense ratio is calculated in accordance with the requirements in the Investment Management Association of Singapore's guidelines on the disclosure of expense ratios (the "**IMAS Guidelines**") and is based on the Sub-Fund's latest audited accounts for the financial year ended 31 December 2019. The following expenses (where applicable) as set out in the IMAS Guidelines (as may be updated from time to time), are excluded from the calculation of the expense ratio:
 - (a) brokerage and other transaction costs associated with the purchase and sales of investments (such as registrar charges and remittance fees);
 - (b) foreign exchange gains and losses, whether realised or unrealised;
 - (c) front-end loads, back-end loads and other costs arising on the purchase or sale of other funds;
 - (d) tax deducted at source or arising on income received, including withholding tax;

 - (f) dividends and other distributions paid to the Holders.

The past performance of the Sub-Fund is not necessarily indicative of its future performance.

15.2 Turnover ratio

The turnover ratio of the Sub-Fund for the financial year ended 31 December 2019 is 134.92%.

The turnover ratio is calculated based on the lesser of purchases or sales of the Sub-Fund's underlying investments expressed as a percentage of the daily average NAV of the Sub-Fund.

16. **SOFT DOLLAR COMMISSIONS/ARRANGEMENTS**

16.1 Managers' soft dollar disclosures

Subject to the provisions of the Code, we may from time to time receive or enter into soft-dollar commissions/arrangements in our management of the Sub-Fund. We will comply with applicable regulatory and industry standards on soft dollars. The soft-dollar commissions/arrangements may include specific advice as to the advisability of dealing in, or the value of any investments, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis, and custodial service in relation to the investments managed for clients.

Soft-dollar commissions/arrangements will not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

We will not accept or enter into soft-dollar commissions/arrangements in respect of the Sub-Fund unless (a) such soft-dollar commissions/arrangements can reasonably be expected to assist us in the management of the Sub-Fund, (b) best execution is carried out for the transactions and (c) no unnecessary trades are entered into in order to qualify for such soft-dollar commissions/arrangements.

We do not and are not entitled to, retain cash or commission rebates for our own account in respect of rebates earned when transacting in securities for account of the Sub-Fund.

17. CONFLICTS OF INTEREST

17.1 Managers' conflicts of interest disclosures

We are of the view that there is no conflict of interest in our management of other funds and the Sub-Fund because of the following structures in place:

- (a) Investment decisions for each fund are made impartially. There are no preferred customers or funds and all accounts are treated equally.
- (b) All investment ideas are shared equally among fund managers.
- (c) We subscribe to the Code of Ethics and the Standards of Professional Conduct as prescribed by the Chartered Financial Analyst Institute ("CFA Institute") in the United States of America. The CFA Institute is the primary professional organisation for security analysts, investment managers and others who are involved in the investment decision-making process. All charter holders of the CFA Institute and candidates who are in pursuit of the charter, including those from Singapore, are expected to comply with CFA Institute standards. The Code of Ethics and the Standards of Professional Conduct are in place to ensure high ethical and professional standards of investment professionals as well as fair treatment of the investing public.
- (d) Despite the possible overlap in the scope of investments, none of the funds are identical to one another and investment decisions are made according to the individual risk-return characteristic of the relevant fund.
- (e) Most importantly, our usual fair and unbiased practice is to allocate investments proportionately between various funds which place the same orders simultaneously. However, if there are any potential conflicts of interests due to competing orders for the same securities, we will adopt an average pricing policy whereby orders that are partially fulfilled on a particular day will be allotted proportionately among the funds based on their respective initial order size and such quantity allotted will be at the average price of such investments on that particular day.

We shall conduct all transactions with or for the Sub-Fund on an arm's length basis.

Save as provided in the Deed, our associates may be engaged to provide banking, brokerage, financial or other services to the Sub-Fund or the Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or us and make profits or derive benefits from these activities. Such services to the Sub-Fund or the Fund, where provided, and such activities with the Trustee or us, where entered into, will be on an arm's length basis.

We and our related entities, officers or employees may from time to time invest and deal in Units for each of our respective individual accounts or (in our case and in the case of our related entities) for the account of another person (including, without limitation, our and our related entities' other clients).

In such an event, we will have regard to our obligations to the Sub-Fund and, in particular, our obligation to act in the best interests of the Sub-Fund and the Holders so far as practicable, having regard to applicable laws and our obligations to our other clients. If a conflict of interest does arise, we will endeavour to ensure that such conflict is resolved fairly.

Subject to the provisions of the Code, we may from time to time:

- (i) invest monies of the Sub-Fund in the securities of any of our related corporations (as defined in Section 4 of the Companies Act, Chapter 50 of Singapore) (each, a "**related corporation**");
- (ii) invest monies of the Sub-Fund in other collective investment schemes managed by us or our related corporations; and

- (iii) deposit monies of the Sub-Fund in the ordinary course of business of the Sub-Fund with our related corporations which are banks licensed under the Banking Act, Chapter 19 of Singapore, finance companies licensed under the Finance Companies Act, Chapter 108 of Singapore, merchant banks approved as financial institutions under Section 28 of the Monetary Authority of Singapore Act, Chapter 186 of Singapore or any other deposit-taking institution licensed under an equivalent law in a foreign jurisdiction.

We will endeavour to ensure that such investments and deposits are made on normal commercial terms and are consistent with the investment objective, focus and approach of the Sub-Fund.

17.2 Trustee's conflicts of interest disclosures

The Trustee shall conduct all transactions with or for the Sub-Fund on an arm's length basis.

The Trustee, the registrar and the custodian may from time to time act as trustee, administrator, registrar or custodian or otherwise as may be required from time to time in relation to, or be otherwise involved in or with, other funds and clients which have similar investment objectives to those of the Sub-Fund. It is, therefore, possible that any of them may, in the course of business, have potential conflicts of interest with the Sub-Fund. Each will, at all times, have regard in such event to its obligations to the Sub-Fund and will endeavour to ensure that such conflicts are resolved fairly and taking into account Holders' interests.

The services of the Trustee provided to the Fund are not deemed to be exclusive and the Trustee shall be free to render similar services to others (including those that may compete with (or have a similar objective to) the business of the Fund or the Sub-Fund) so long as its services to the Fund are not impaired thereby and to retain for its own use and benefit all appropriate fees and benefits. Conflicts of interest will likely arise from the fact that State Street is engaged in a wide variety of businesses and will provide services to many clients with the same or different objectives. The Trustee and its related parties shall not be deemed to be affected with notice of or to be under any duty to disclose to the Fund or the Sub-Fund any fact or information which comes to the notice of the Trustee in the course of the Trustee rendering similar services to other parties or in the course of its business in any other capacity, otherwise than in the course of carrying out its duties under the Deed or as required by any applicable laws and regulations for the time being in force.

Save as provided in the Deed, the associates of the Trustee may be engaged to provide banking, brokerage, financial or other services to the Sub-Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or us and make profits or derive benefits from these activities. Such services to the Sub-Fund, where provided, and such activities with the Trustee or us, where entered into, will be on an arm's length basis. In particular:

- (a) State Street Bank and Trust Company, acting through its Singapore Branch, a party related to the Trustee, has been appointed as custodian of the Fund. The custodian may also appoint related parties as sub-custodians. Cash will be placed with the custodian as banker or may, at our discretion, be invested in certificates of deposit or banking instruments issued by a related party of the Trustee, including the custodian. Money may also be borrowed by the Fund from a State Street entity. In its capacities as custodian and banker, State Street will earn fees/interest for such services and may receive other benefits in connection with such services; and
- (b) where foreign exchange transactions, including but not limited to spot, forward or swap transactions (collectively "**foreign exchange transactions**"), are entered into for or on behalf of the Sub-Fund with an affiliate of the Trustee (a "**State Street counterparty**"), the State Street counterparty will enter into such transaction as principal counterparty and not as agent or fiduciary for the Trustee, us or the Sub-Fund and such State Street counterparty shall be entitled to retain for its own use and benefit any benefit which it may derive from any such foreign exchange transactions or the holding of any cash in connection with such transactions. Foreign exchange transactions may also be entered into for or on behalf of the Sub-Fund with counterparties other than a State Street counterparty.

18. REPORTS

20. OTHER MATERIAL INFORMATION

20.1 Market timing

The Sub-Fund is not designed and managed to support short-term investments. In this regard, we take a serious view of, and strongly discourage the practice of market timing (that is, investors conducting short-term buying or selling of Units to gain from inefficiencies in pricing) as such practices may cause an overall detriment to the interests of other investors.

In addition, short-term trading in Units increases the total transaction costs of the Sub-Fund, such as trading commission and other costs which are absorbed by all other investors. Moreover, the widespread practice of market timing may cause large movements of cash in the Sub-Fund, which may disrupt the investment strategies to the detriment of other investors.

For the reasons set out above, we may implement internal measures to monitor and control the practice of market timing. If any internal measure to restrict the practice of market timing amounts to a significant change to the Fund or the Sub-Fund (as provided in the Code), we will inform Holders of such internal measure not later than one month before its implementation. We intend to review our policy on market timing from time to time in a continuous effort to protect the interests of investors in the Sub-Fund.

20.2 Information on investments

At the end of each quarter, you will receive a statement showing the value of your investments in the Sub-Fund. However, if you conduct any transaction(s) within a particular month, you will receive an additional statement at the end of that month.

20.3 Indemnities

We and the Trustee are entitled to be indemnified out of or have recourse to the Deposited Property in accordance with the terms of the Deed. See the Deed for further details.

20.4 Liquidation of the Managers, the Trustee or the custodian

Subject to the provisions of the Deed, if the Managers or the Trustee go into liquidation (except for a voluntary liquidation for the purpose of reconstruction or amalgamation), new managers or a new trustee (as the case may be) may be appointed or the Fund may be terminated. See the Deed for further details on what happens if the Managers or the Trustee go into liquidation.

Custodial risk

There are risks involved in dealing with the custodian who holds the Sub-Fund's investments or settles the Sub-Fund's trades. It is possible that, in the event of the insolvency or bankruptcy of the custodian, the Sub-Fund would be delayed or prevented from recovering its assets from the custodian, or its estate, and may have only a general unsecured claim against the custodian for those assets. In recent insolvencies of financial institutions, the ability of certain customers to recover their assets from the insolvent financial institution's estate has been delayed, limited, or prevented, often unpredictably, and there is no assurance that any assets held by the Sub-Fund with the custodian will be readily recoverable by the Sub-Fund. In addition, there may be limited recourse against non-U.S. sub-custodians in those situations in which the Sub-Fund invests in markets where custodial and/or settlement systems and regulations are not fully developed, including emerging markets, and the assets of the Sub-Fund have been entrusted to such non-U.S. sub-custodians.

21. PROVISIONS OF THE DEED

Some of the provisions of the Deed are set out below. *See the Deed for the full terms and conditions of the Fund.*

21.1 Valuation

- (a) Save as otherwise expressly provided in the Deed and subject to the provisions of the Code, for the purpose of determining the value of the Deposited Property or any part thereof or any Investment comprised or to be comprised therein the value shall be determined by the Managers, or any authorised agent of the Managers, as at each Valuation Point and in the case of any Investment which is quoted, shall be calculated, as the case may be, by reference to the official closing price, the last known transacted price or the last transacted price on such Recognised Stock Exchange or over-the-counter market on which the Investment is traded before the Valuation Point in respect of the Dealing Day on which the value is to be determined; where such Investment is listed, dealt or traded in more than one Recognised Stock Exchange or over-the-counter market, the Managers (or such person as the Managers shall appoint for the purpose) may in their absolute discretion select any one of such Recognised Stock Exchange or over-the-counter market for the foregoing purposes and, if there be no such official closing price, last known transacted or last transacted price, the value shall be calculated by reference to the last available price(s) quoted by responsible firms, corporations or associates on a Recognised Stock Exchange or an over-the-counter market at the Valuation Point in respect of the Dealing Day on which the value is to be determined PROVIDED THAT if the quotations referred to above are not available or if such quotations, in the opinion of the Managers, do not represent a fair value of the Investment then the value of such Investment shall be the price reasonably expected to be received upon the current sale of the asset and the valuation shall be any reasonable value as may be determined by the Managers with due care and in good faith with the consent of the Trustee who shall decide if a notice to notify the Holders of such determination is required and, in determining such reasonable value, the Managers may rely on quotations for the Investment on another Recognised Stock Exchange or in an over-the-counter market or by an authorised dealer for Singapore Government Securities or other fixed income securities or any certified valuation by a member of repute of any Recognised Stock Exchange or such other reasonable means as the Trustee may approve.
- (b) In the case of any Investment which is unquoted, the value thereof shall be calculated by reference to the initial value thereof being the amount expended in the acquisition thereof or price of the relevant Investment as quoted by a person, firm or institution making a market in that Investment, if any (and if there shall be more than one such market maker then such market maker as the manager may designate), as may be determined by the Managers to represent the fair value of such Investment.
- (c) Neither the Trustee nor the Managers shall incur any liability by reason of the fact that a price reasonably believed by them to be the last sale price or other appropriate closing price may be found not to be such PROVIDED THAT it has acted in good faith without negligence and with due care.

- (d) In calculating the NAV of the Deposited Property or any part thereof or any Investment comprised or to be comprised therein:
- (i) every Unit agreed to be issued by the Managers shall be deemed to be in issue and the Deposited Property shall be deemed to include not only property in the hands of the Trustee but also the value of any cash or other property to be received in respect of Units agreed to be issued and providing thereout the Subscription Fee and the adjustment authorised by the Deed, if any, and (in the case of Units issued against the vesting of Authorised Investments) any monies payable out of the Deposited Property of the Sub-Fund pursuant to Clause 7(C) of the Deed;
 - (ii) where in consequence of any notice or request in writing given pursuant to the Deed a reduction of the Sub-Fund by the cancellation of Units is to be effected but such reduction has not been completed the Units in question shall be deemed not to be in issue and any amount payable out of the Deposited Property in pursuance of such reduction shall be deducted;
 - (iii) where Investments have been agreed to be purchased or otherwise acquired or sold but such purchase, acquisition or sale has not been completed, such Investments shall be included or excluded as the case may be and the gross purchase, acquisition or net sale consideration excluded or included as the case may be as if such purchase, acquisition or sale had been duly completed;
 - (iv) there shall be deducted on a proportionate basis any amounts not provided for above which are payable out of the Deposited Property, including the Management Fee (which shall be deducted in accordance with paragraph 21.1(e) if the Management Fee differs between the Classes within the Sub-Fund), borrowings, interest and expenses incurred in accordance with the provisions of the Deed;
 - (v) there shall be taken into account such estimated sum as in the opinion of the Managers will be payable or reclaimable in respect of taxation related to Income on transactions down to the relevant date other than any tax which may fall to be deducted by the Trustee on any distribution made or to be made under the Deed;
 - (vi) where the current price of an Investment is quoted “ex” dividend or interest or other payment but such dividend or interest has not been received and is not taken into account under any other provision of this paragraph 21.1, the amount of such dividend or interest or other payment shall be included;
 - (vii) there shall be taken into account such estimated sum as in the opinion of the Managers and Trustee represents provision for any liabilities contingent or otherwise which the Managers and Trustee consider to be appropriate and necessary;
 - (viii) any value (whether of an Investment or cash) otherwise than in Singapore dollars and any borrowing otherwise than in Singapore dollars shall be converted into Singapore dollars at the mean of the closing, buying and selling telegraphic transfer rates quoted by any licensed bank including UOB on the Valuation Point or at the rate (whether official or otherwise) which the Managers after consulting with or in accordance with a method approved by the Trustee shall deem appropriate to the circumstances having regard inter alia to any premium or discount which may be relevant and to costs of exchange (if any) PROVIDED THAT any determination made by the Managers hereunder as to any rate of exchange or method of determination thereof in accordance with the provisions of this paragraph shall be final and binding; and
 - (ix) any amendment to the method of valuation by the Managers shall be made only with the prior approval of the Trustee. The Managers shall give notice of such amendment to the Holders if so required by the Trustee;
- (e) In respect of paragraph 21.1(d) above, in the case of the Sub-Fund which has more than one Class, the NAV of the proportion of the Deposited Property attributable to each Class shall be calculated by apportioning the value of the Deposited Property (obtained in accordance with paragraphs 21.1(a), 21.1(b) and 21.1(d) above provided that no deduction or addition shall be made in respect of expenses, charges or other amounts which are not common to all the Classes) between the Classes and then deducting from or adding to the value of the proportion of the Deposited Property for each Class any expense, charge or other amount attributable to such Class (including, but not limited to, the Management Fee if it differs between Classes within the Sub-Fund). For the avoidance of doubt, where any expense, charge or amount payable out of or

payable into the Deposited Property of the Sub-Fund pursuant to the Deed is attributable only to a particular Class within the Sub-Fund, such amount shall only be deducted from or added to the value of the Deposited Property which is attributable to that Class and shall not affect the calculation of the value of the Deposited Property attributable to other Classes within the Sub-Fund.

21.2 Compulsory realisations

The Managers have the right (in consultation with the Trustee) to compulsorily realise any holdings of Units in the Sub-Fund held by:

- (a) any Holder:
 - (i) whose subscription for or holding of Units, in the opinion of the Managers, is or may be in breach of any applicable law or regulation in any jurisdiction; or
 - (ii) where such realisation is, in the opinion of the Managers, necessary or desirable for the compliance of the Managers or the Sub-Fund with any applicable law or regulation in any jurisdiction (including any regulatory exemption conditions); or
- (b) any Holder whose holdings, in the opinion of the Managers:
 - (i) may cause the Sub-Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or

Any compulsory realisation under this paragraph may be carried out by the Managers on any Dealing Day, with prior notice to the relevant Holder, and shall be carried out in accordance with, and at the realisation price determined under, the applicable provisions on realisations in the Deed.
